FULL OF COLOR AND A PRESENCE OF
TRANQUILITY, THIS LANDSCAPE IS
BEAUTIFULLY DISPLAYED IN TWO PIECES
WITH A LINEN LINER AND A PEWTER
WOOD MOULDING.

The cottage family room is perfect for the smaller living space and is very kid friendly. It has a luxurious transitional sofa with spring down cushions that hold their shape; the down provides extra softness. Accent pillows in your colorway will add more pattern and color. The frame has beautiful upholstered inset panels and looks great from any angle.

A pair of floor lamps provide much needed style and light on either side of the sofa.

The two ottomans are perfect for converting from kid zone to cocktail hour with the flip of a cushion. They are stools by day and tables by night. The walnut trays are beautiful and rich to hold drinks. They are also easy to move around as footstools too.

The entertainment console has a low, modern profile to accommodate a large TV at only 27" high, so your viewing angle is ideal. It has two working doors and an open center area to house components. It supports a flat screen TV with an aged bronze base.

The modern scoop chair adds sculptural flair to the design. The accent table is carved wood with a twist and holds a drink and a book comfortably.

A pair of beautiful coastal art prints add color and tranquility to any wall.

A console table adds a spot for books or family photos while the link mirror adds a bit of architecture to your space.

This collection offers very comfortable and versatile furnishings that will last for years to come!
